PROFILE

I am a MERN Stack Developer with a strong foundation in building full-stack web applications using MongoDB, Express.js, React, and Node.js. I have completed a 6-month internship at Sahil Infotech, where I gained hands-on experience in developing real-world projects such as e-commerce platforms and chat applications. I am passionate about learning and exploring Artificial Intelligence and aim to integrate AI solutions into modern web applications. I am a quick learner, problem solver, and always eager to improve my skills.
